# ANTIRRHINUM - SNAPDRAGON

Outdoor Snapdragons have been growing more popular in the home garden as the difficulties experienced years ago from rust have been substantially controlled by Rust Resistant Strains. For that reason the group listed here is to be highly recommended to both the bedding plant grower as well as the commercial grower of outdoor cut flowers. We have selected these strains of the varieties listed with much care from the cultures of outstanding growing specialists. They will give you the best stock available.

ALLEGRO: Scarlet salmon in bud opening bright deep salmon. Fully double fringe 3½'' to 4'' flowers. A dwarf vigorous grower base branching. About 12'' high, 24'' spread. An all purpose variety.

CAPRICE: A bright rose of attractive shade. Other characteristics similar to Allegro.

MINUET: Orchid-lavender, some blooms variegated. Taller than the two above (18") but about the same spread. Pinching in early growth suggested for better plant form.

NOCTURNE: Violet purple - dark. Flowers medium large - 3'' to 31/2'' but fully double fringed. Plant habit medium tall (15'') with 24'' spread. A good bedding sort.

RHAPSODY: Burgundy wine-red, Large flowered - 3½'' to 4'' and fully double fringed, Uniformly dwarf 12'' by 24'' and freely base branched, Very excellent.

SONATA: Pure white. Large flowered - 3½" to 4" and freely fringed full double. Medium dwarf - 18" by 24". Suggested March 1st planting for May 1st setting. Pinch early in growth for better form.

#### COLEUS SEEDS

These plants are widely popular and those produced from our seed have excited much favorable comment from our customers. In spite of their being in mixed colors and markings, many new color combinations are produced and these are attractive to many gardeners because of their novelty. There is a distinct demand for these along with those normally grown by cuttings from named varieties. The cost of production is low. Why not try a few on your market this year? They may surprise you.

LARGE LEAF TALL: A mixture of brilliant colors, robust plant habit suitable for back borders or individual specimen plants.
SMALL LEAVED MIXTURE: Brightly colored and compact these are best adapted

for low border plantings. Do nicely in pots.

GLORY BLEND: This variety is fine for pots as well as edgings. Leaves are medium large and brightly colored yet the plants are reasonably compact.

SEEDS OF THE ABOVE THREE SORTS: Trade Pkt. \$1.00; 3 Pkts. \$2.50; 16 oz. \$3.50.

FLORISTS' DECORATIVE BLEND: A new group of medium height with rather large leaves. Distinguished by their fine range of colors and markings, many of light and pastel shades. The robust, compact growth suits them well for pot culture and borders.

**SEEDS:** Trade pkt. \$1.25; 3 pkts. \$3.00;  $\frac{1}{16}$  oz. \$5.00.

# Harrold's Pedigreed GIANT PANSIES

This line is America's most complete quality line of Pansies and Violas. A large catalogue is necessary to properly list all the 86 varieties. Most of you have received this catalogue but if not now handy another will be supplied on request. You should have one on file.

### SWEET PEAS CUTHBERTSON SPRING FLOWERING

These are an important addition to this highly valued group of flowers. This strain has great vigor and produces a profusion of flowers of large size and much fragrance. Their main value above this is that they flower under glass better in spring than the winter flowered types. Planted from October till February they make a good commercial crop well into late spring. Cultured outdoors they do well almost everywhere and make possible Sweet Pea culture in hot climates where these beautiful flowers were not successful before. Try them and you'll like them.
